User's Manual

OVERVIEW

For all we know, Forum is a widely known place, meeting, or medium where ideas and views on a particular issue can be exchanged. I-Forum is an integrated forum android app where we can exchange ideas anywhere using android phones.

User's Manual

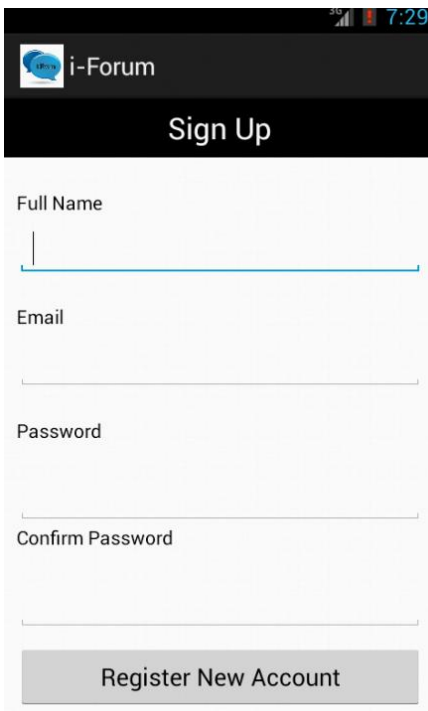

WELCOME

1.1 Welcome Page

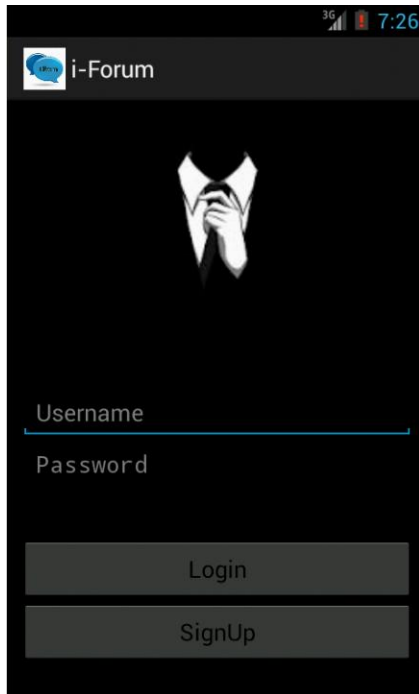

Step 1:
Go to i-Forum app.

1.2 Register

Step 2:
Click the SignUp button to create an account.

1.3 Log-in

Step 3:

If you already have an account, Login to your account.

Getting Started

2.1 Home

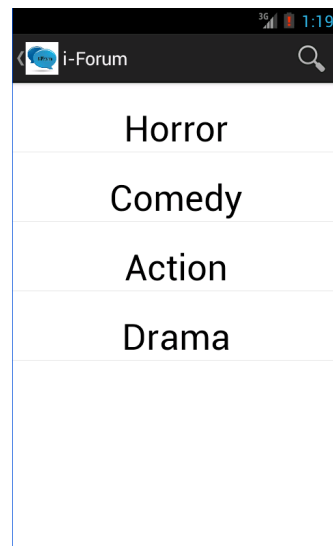

Step 4:

After you log-in, you will be redirected to the homepage. And you can click on the magnify(search) button to search for a specific category on the list.

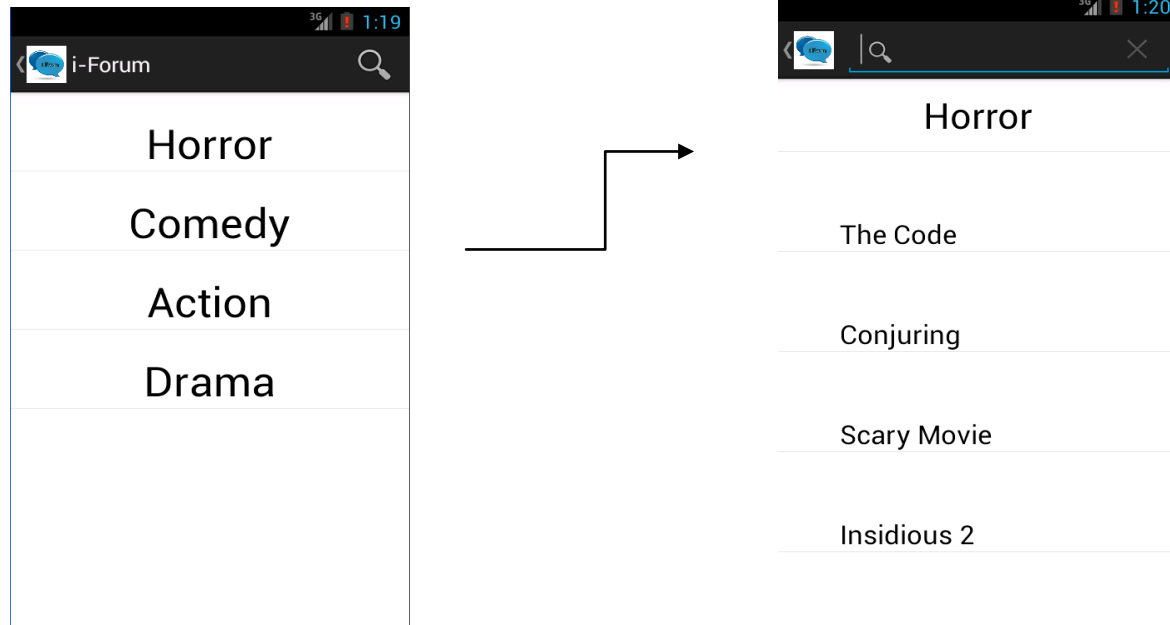

Step 5:

To view specific genre, click one of the categories. And you can search for that specific genre that you want.

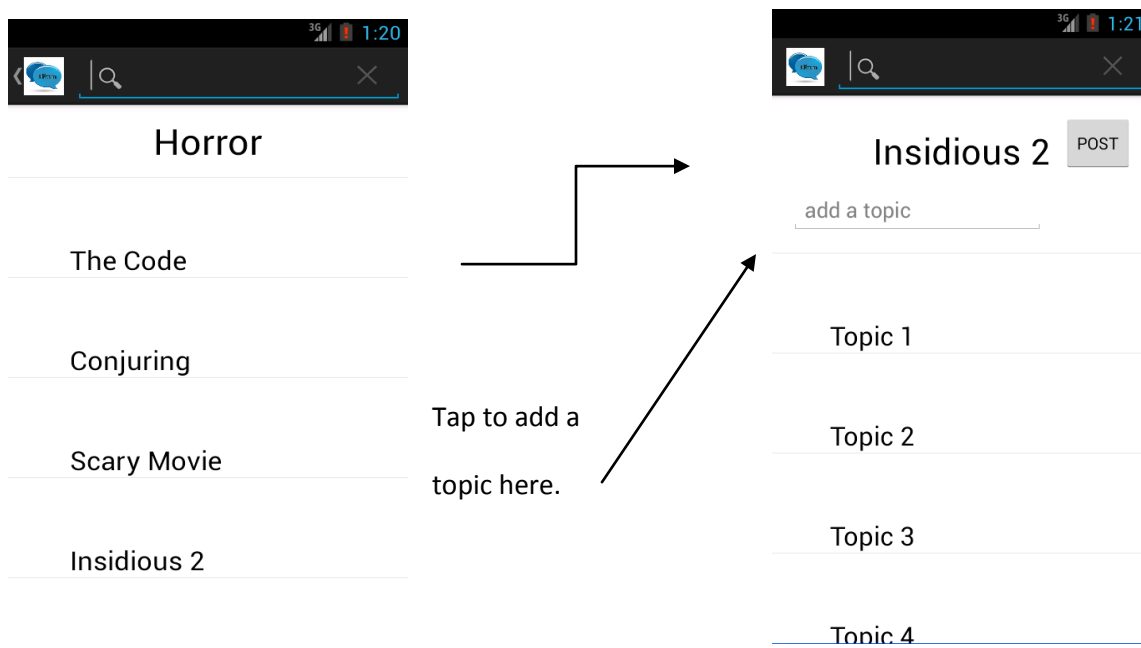

Step 6:

From the chosen genre, you will then choose a specific item listed. And you can still search for the specific item by clicking the search  button.

Step 7:

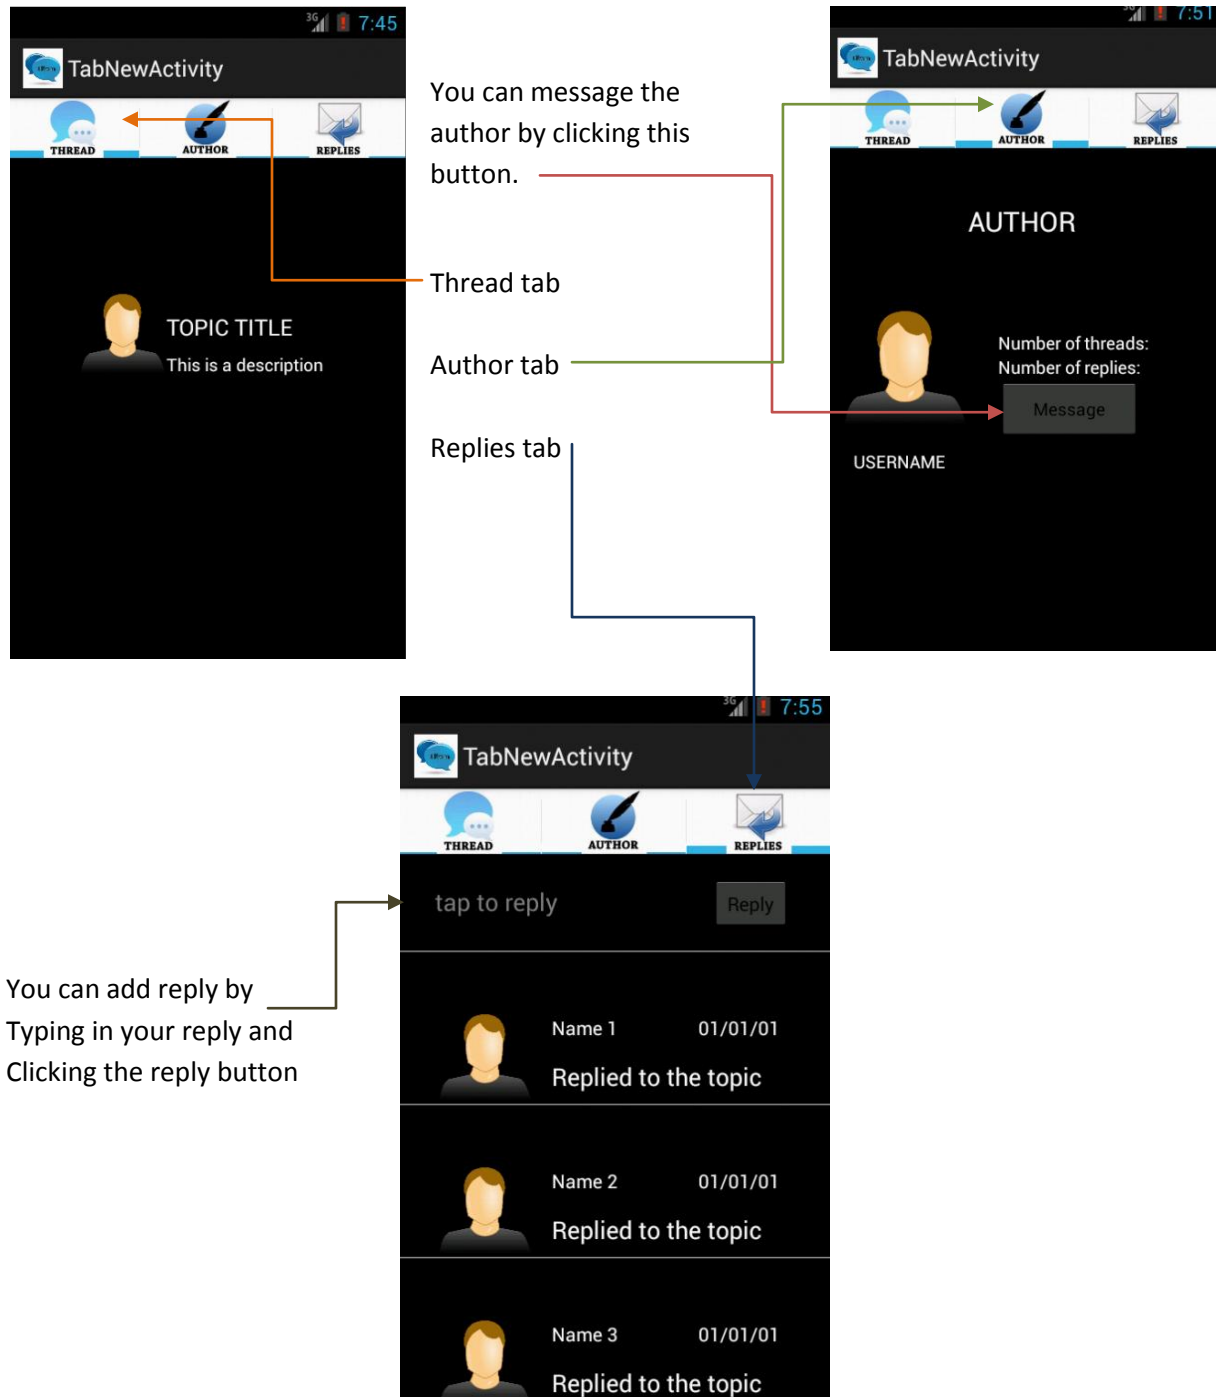

From the chosen item, you will be directed to the list of topics where you can view or add a topic.

2.2 Discussions

Step 8:

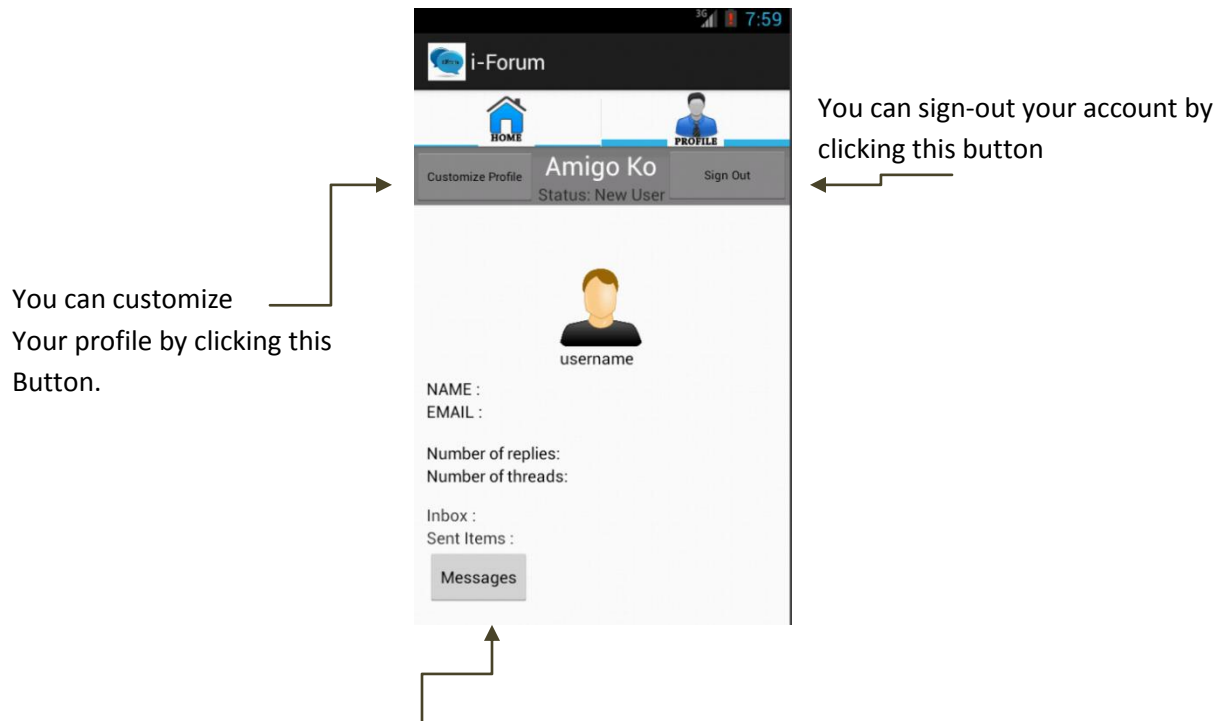

If you pick a topic from the list of topics, you will be redirected to Discussion area, where you can view Thread tab, which contains the title and the concerns of that certain topic, the Author tab, which contains the information of the author who posted that topic, and the Replies tab, which contains the discussions about that certain topic.

2.3 Profile

Step 9:

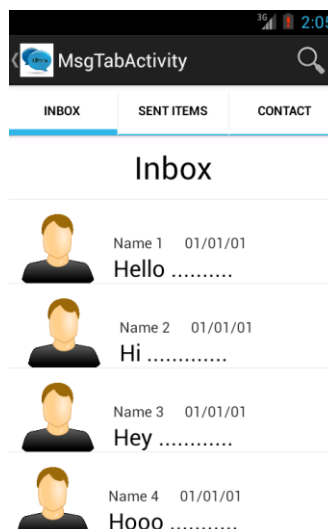

In the homepage beside the Home tab, is the profile tab. It contains information about you together with the no. of replies and threads you have made. It is also where you can sign-out.

You can also view your messages by clicking this button.

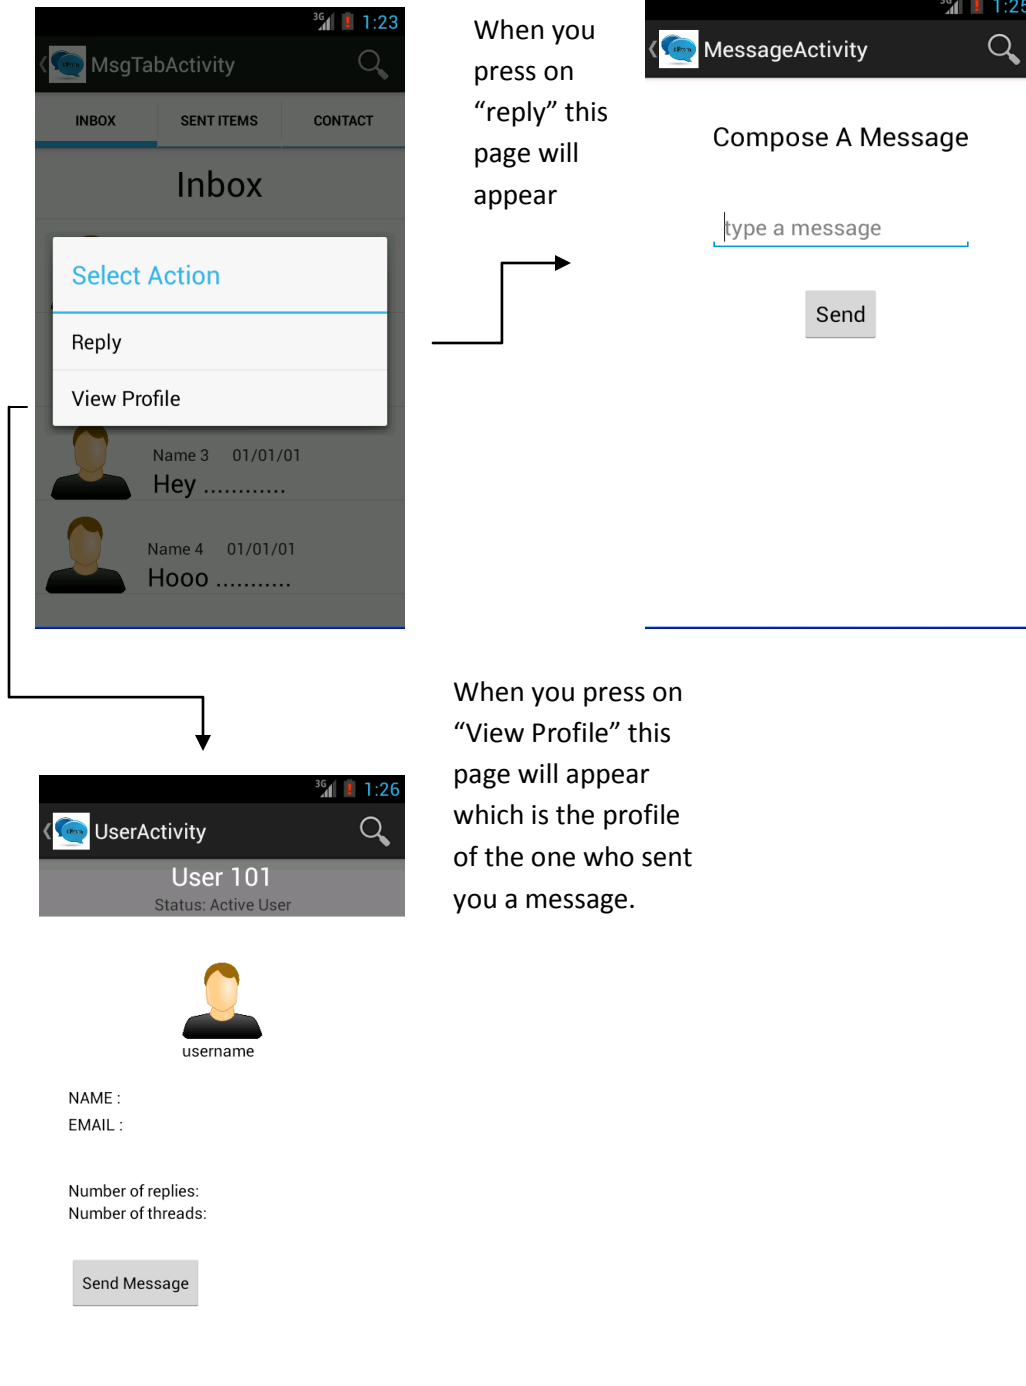

Step 10:

When you click the messages button, three tabs will appear: Inbox, Sent Items, and Contacts.

Step 11:

When you long press on a given list from the inbox, sent items, and contacts tabs. There will be a pop-up window that will let you choose on what action to do with that specific list.

And here are for the sent items and contact tabs:
